The meeting of staff members of department of Physics is held under the chairmanship of Dr. A. P. Pachkawade (HOD) on date 05/1/2021 at 11.00am. In this meeting the discussion on the following issues is done.

**1) Discussion about to conduct an activity of “Online demonstration of Physics experiment”.**

The COVID-19 pandemic has significantly affected the education system worldwide that was responding with a sudden shift to distance learning. Various physics courses such as lectures, tutorials, and the laboratories had to be transferred into online formats rapidly, resulting in a variety of simultaneous, asynchronous, and mixed activities. With online theory lectures student get a complete idea relevant to physics practical's, we know that in physics class, lab is central. Integral. Sacred. More than a mere place in the back of the classroom, the laboratory is the place where physics students do physics. It is in the laboratory that physics students learn to practice the activities of scientists - asking questions, performing procedures, collecting data, analysing data, answering questions, and thinking of new questions to explore. The lab ideas and associated pages in The Laboratory section of this web site are designed to help teachers improve their lab programs for this purpose, Department of physics conducted activity which is ‘Online Demonstration on Physics Experiment’ on dated 11/01/21 during 2.00 pm to 4.00 pm on Google meet for B.Sc. Part I, Sem I students. For this activity we had Convener of the prog. Dr. Roshani NarendraBhagat and co-convener, Dr. A. P. Pachkawade Students numbering 28 from B.Sc. I, Sem I of PCM, CMP and CEP stream were attended the program.

For B.Sc. Part I, Sem I, total 10 experiments mandatorily had to perform. But because of pandemic situation we had choose 6 experiments for demonstration. We also gave one task to the students that after 1 week we allotted 1 experiments among 5 students and they had to give presentation on that, and because of that students had a curiosity to know each and every concept. Lastly Programme was concluded by Dr. Roshani Bhagat, by presenting vote of thanks.

After one week allotted experiment presented by every student for 10 minutes and all presentation were recorded. They also mailed their PPT to respective faculty members. In this way by doing such an activity we fulfil our moto.

Few student unable to attend the same because few one had mobile issue. Still in offline mode we explained all the concept to respective student.

## 2) Discussion about how to conduct a workshop on “Laser and it’s Applications”.

For Workshop on Laser and its Application, we had President of Prog. Dr. S.S. Thakare, Chief Guest Dr. S. S. Arsad (Assistant Professor, Dept. of Physics, Shri Shivaji Science College, Amravati), Head of Physics Dept., Dr. A. P. Pachkawade (Convener) and Dr. Roshani Bhagat (Co-Convener) on online platform. All respected heads of department, Faculty Member, supporting staff and students numbering 70 from various streams of B.Sc. I, II and III attended the same.

A warm welcome was given to all dignitaries on online platform by Dr. R. N. Bhagat, (host and co-convener of the prog.). Introductory speech and guest introduction given by Dr. A. P. Pachkawade. (Head of the Physics Department and Convener of the prog.) The technical session was handled by Dr. S. S. Arsad, He delivered lecture on Laser and its application, in which he enriched the importance and information about laser, properties of laser, types of laser, application of laser and explained very well difference between LASER and MASER.

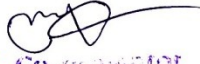

After guest talk, interactive session was run, in which students directly discuss with the Dr. S. S. Arsad and put their question, which was solved by him. Principal Dr. S.S. Thakare sir also asked their query to him in which he gave very satisfactory explanation about the same. Students also were satisfied with this workshop. Lastly vote of thanks delivered by Dr. R.N. Bhagat and conclude the programme. Lastly feedback taken through Google classroom from all the students.

**Proceeding of meeting:**

The meeting of staff members of department of Physics is held under the chairmanship of Dr. A. P. Pachkawade (HOD) on date 08/2/2021 at 3.00pm. In this meeting the discussion on the following issues is done.

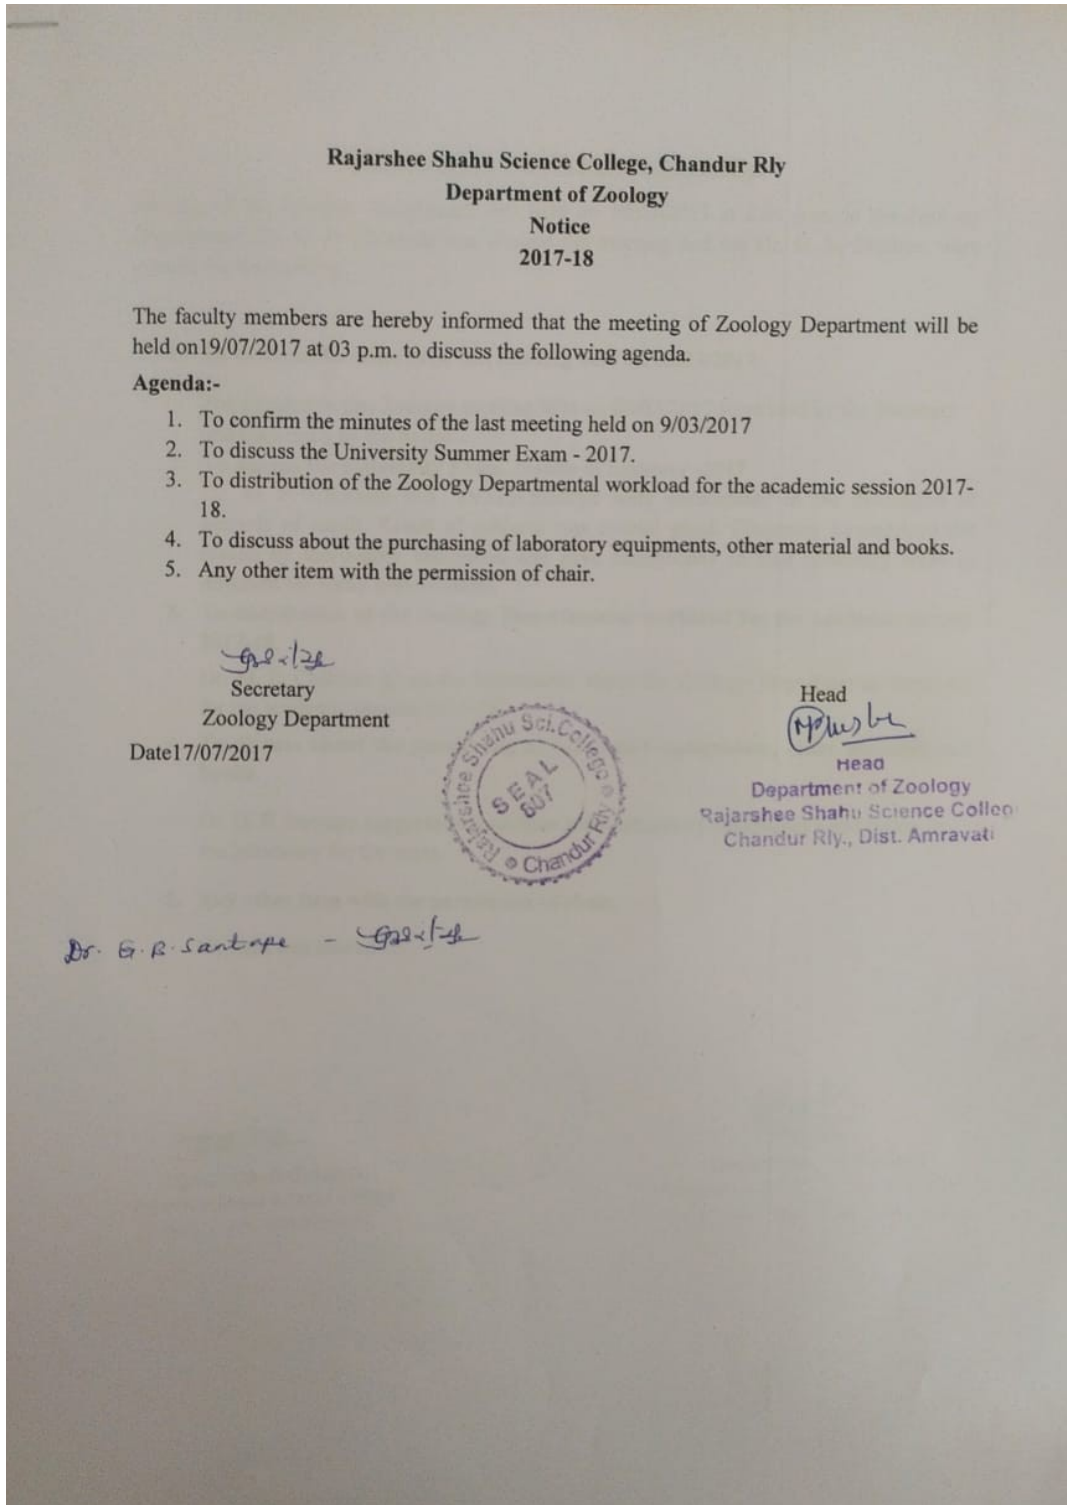

**1)Conduction of Peer teaching activity**

Active-learning strategies are increasingly advocated in academia; Education researchers report that students learn more when they are actively involved in learning than when they are passive recipients. Active involvement in the learning process is thought to enhance creative thinking, judgment, interpretation, and problem-solving skills. Active involvement has also been shown to improve student conceptualization of complex systems and increase retention. Problem-based learning (PBL), team-based learning (TBL), and cooperative peer instruction (CPI) are all active-learning strategies that utilize small-group discussion. Peer tutoring is a set of strategies in which few students from B.Sc. I, II and III serve as both teachers and learners. Every year Department of Physics run this activity, for session 20-21, Ms.SnehalDeshmukh (B.Sc. III, CMP), Ms.PranjaliRaut (B.Sc. II, CEP), Ms.KhushiChoudhary (B.Sc. II, CEP) Actively participated in this activity. In Corona-Pandemic situation very difficult to run the peer teaching activity because all the school run on online mode only the students from 10th and 12th year came and did offline classes by obeying all the rules, against prevention of Covid-19. Hence for session 20-21 we chosen RajarsheeShahu English School, Chandur Rly. Students of standard 10th and 12th. i.e. students of 10th class from and students of standard 12th i.e. RajarsheeShahu Science and AtulJagtap Art Junior College, Chandur Rly, which were situated in our campus, instead of nearby school in villages. Initially we granted permission for 5-days from respective principal and head master of school and for 7th to 12th standard student but as per student availability we implemented it for 3 days i.e. on dated 15, 16, 17th Feb. 21. Dr. A.P. Pachkawade, Mr. S.A. Wani and Dr. Roshani Bhagat all the three physics faculty members were involved in this activity, who could learn to peer student teacher.

On dated 15th Feb Ms.SnehalDeshmukh engaged 12th class and taught topic Basics of thermodynamics. On 16 & 17 she covered topic Electrostatic. Thermodynamics and Electrostatic, both the topic was in the syllabus slected by Ms.SnehalDeshmukh. At the same time 10thstandarad class engaged by Ms.PranjaliRaut (B.Sc. II (CEP)) on dated 16 Feb 21 taught topic Refraction of
